

OnChainWin

DECENTRALIZED LOTTERY FOR EVERYONE

Ersun Kaya, Founder
October, 2024

Lottery sounds lovely,
but how we can know it is
FAIR?

PROBLEMS

TRUST ISSUE

Is the draw process fair? No one knows

Users have to trust the organizer

Huge manipulation possibility

BORDER ISSUE

Users can not attempt abroad lotteries

Local authorization is needed for the organizer

Huge prize pools can not be built globally

REWARD DELIVERY

Millions of dollars worth of unclaimed rewards

Millions of dollars worth of expired rewards

SOLUTION

WEB3 RANDOMNESS

Fully automated draw process

No human touch

No manipulation possibility

No trust requirement

SMART CONTRACTS

Inhouse build smart contracts

Provides fund security until the end of the draw

Specify winners and distribute prizes automatically

TRANSPARENCY

Transparent smart contracts

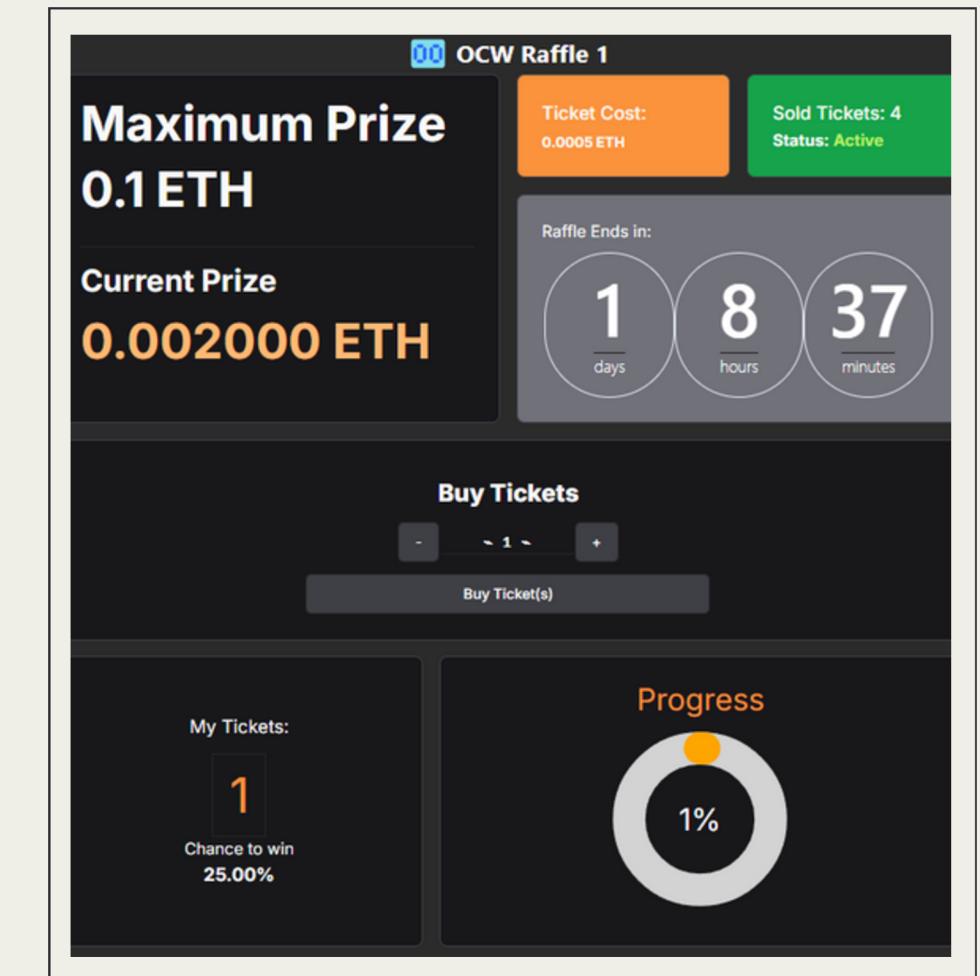

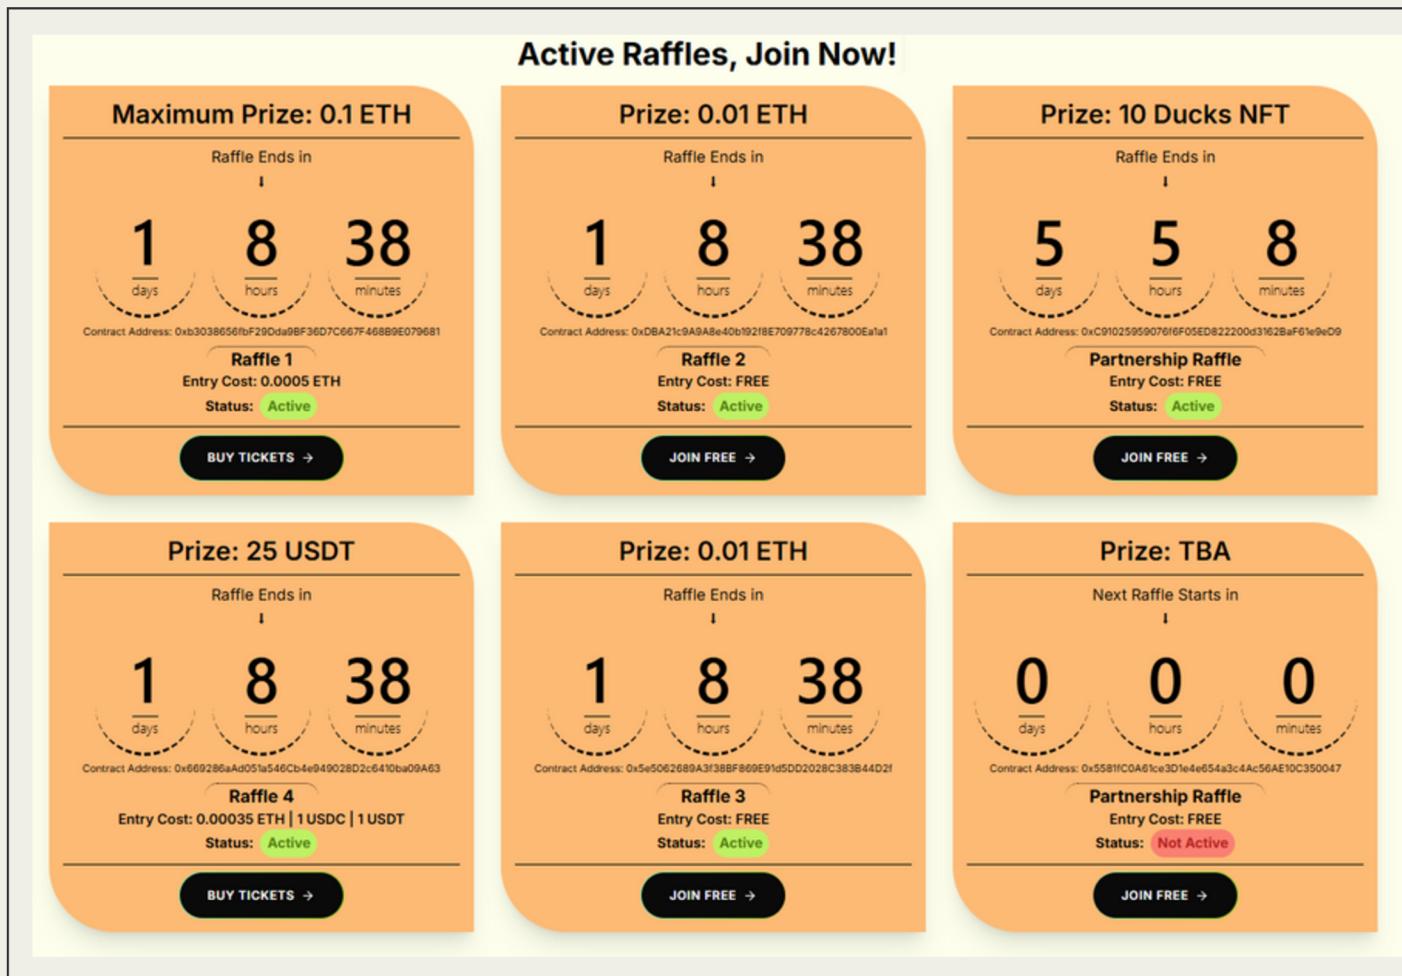

Transparent historical data

Transparent ticket numbers

Transparent winning chance

ONCHAIN WIN

POSITION: TECHNOLOGY PROVIDER

Community Centric
Service and Technology Provider

WHY NEEDED AND WHY NOW?

USECASE

Convert web2 users to web3 users

Help users avoid scam projects in the web3 space

Usage area for small amounts after transactions

GLOBAL CALL

Removes borders to equal opportunities for everyone in the world

Removes the requirement of trust and replace it with transparency

Biggest potential prize pools from global participants

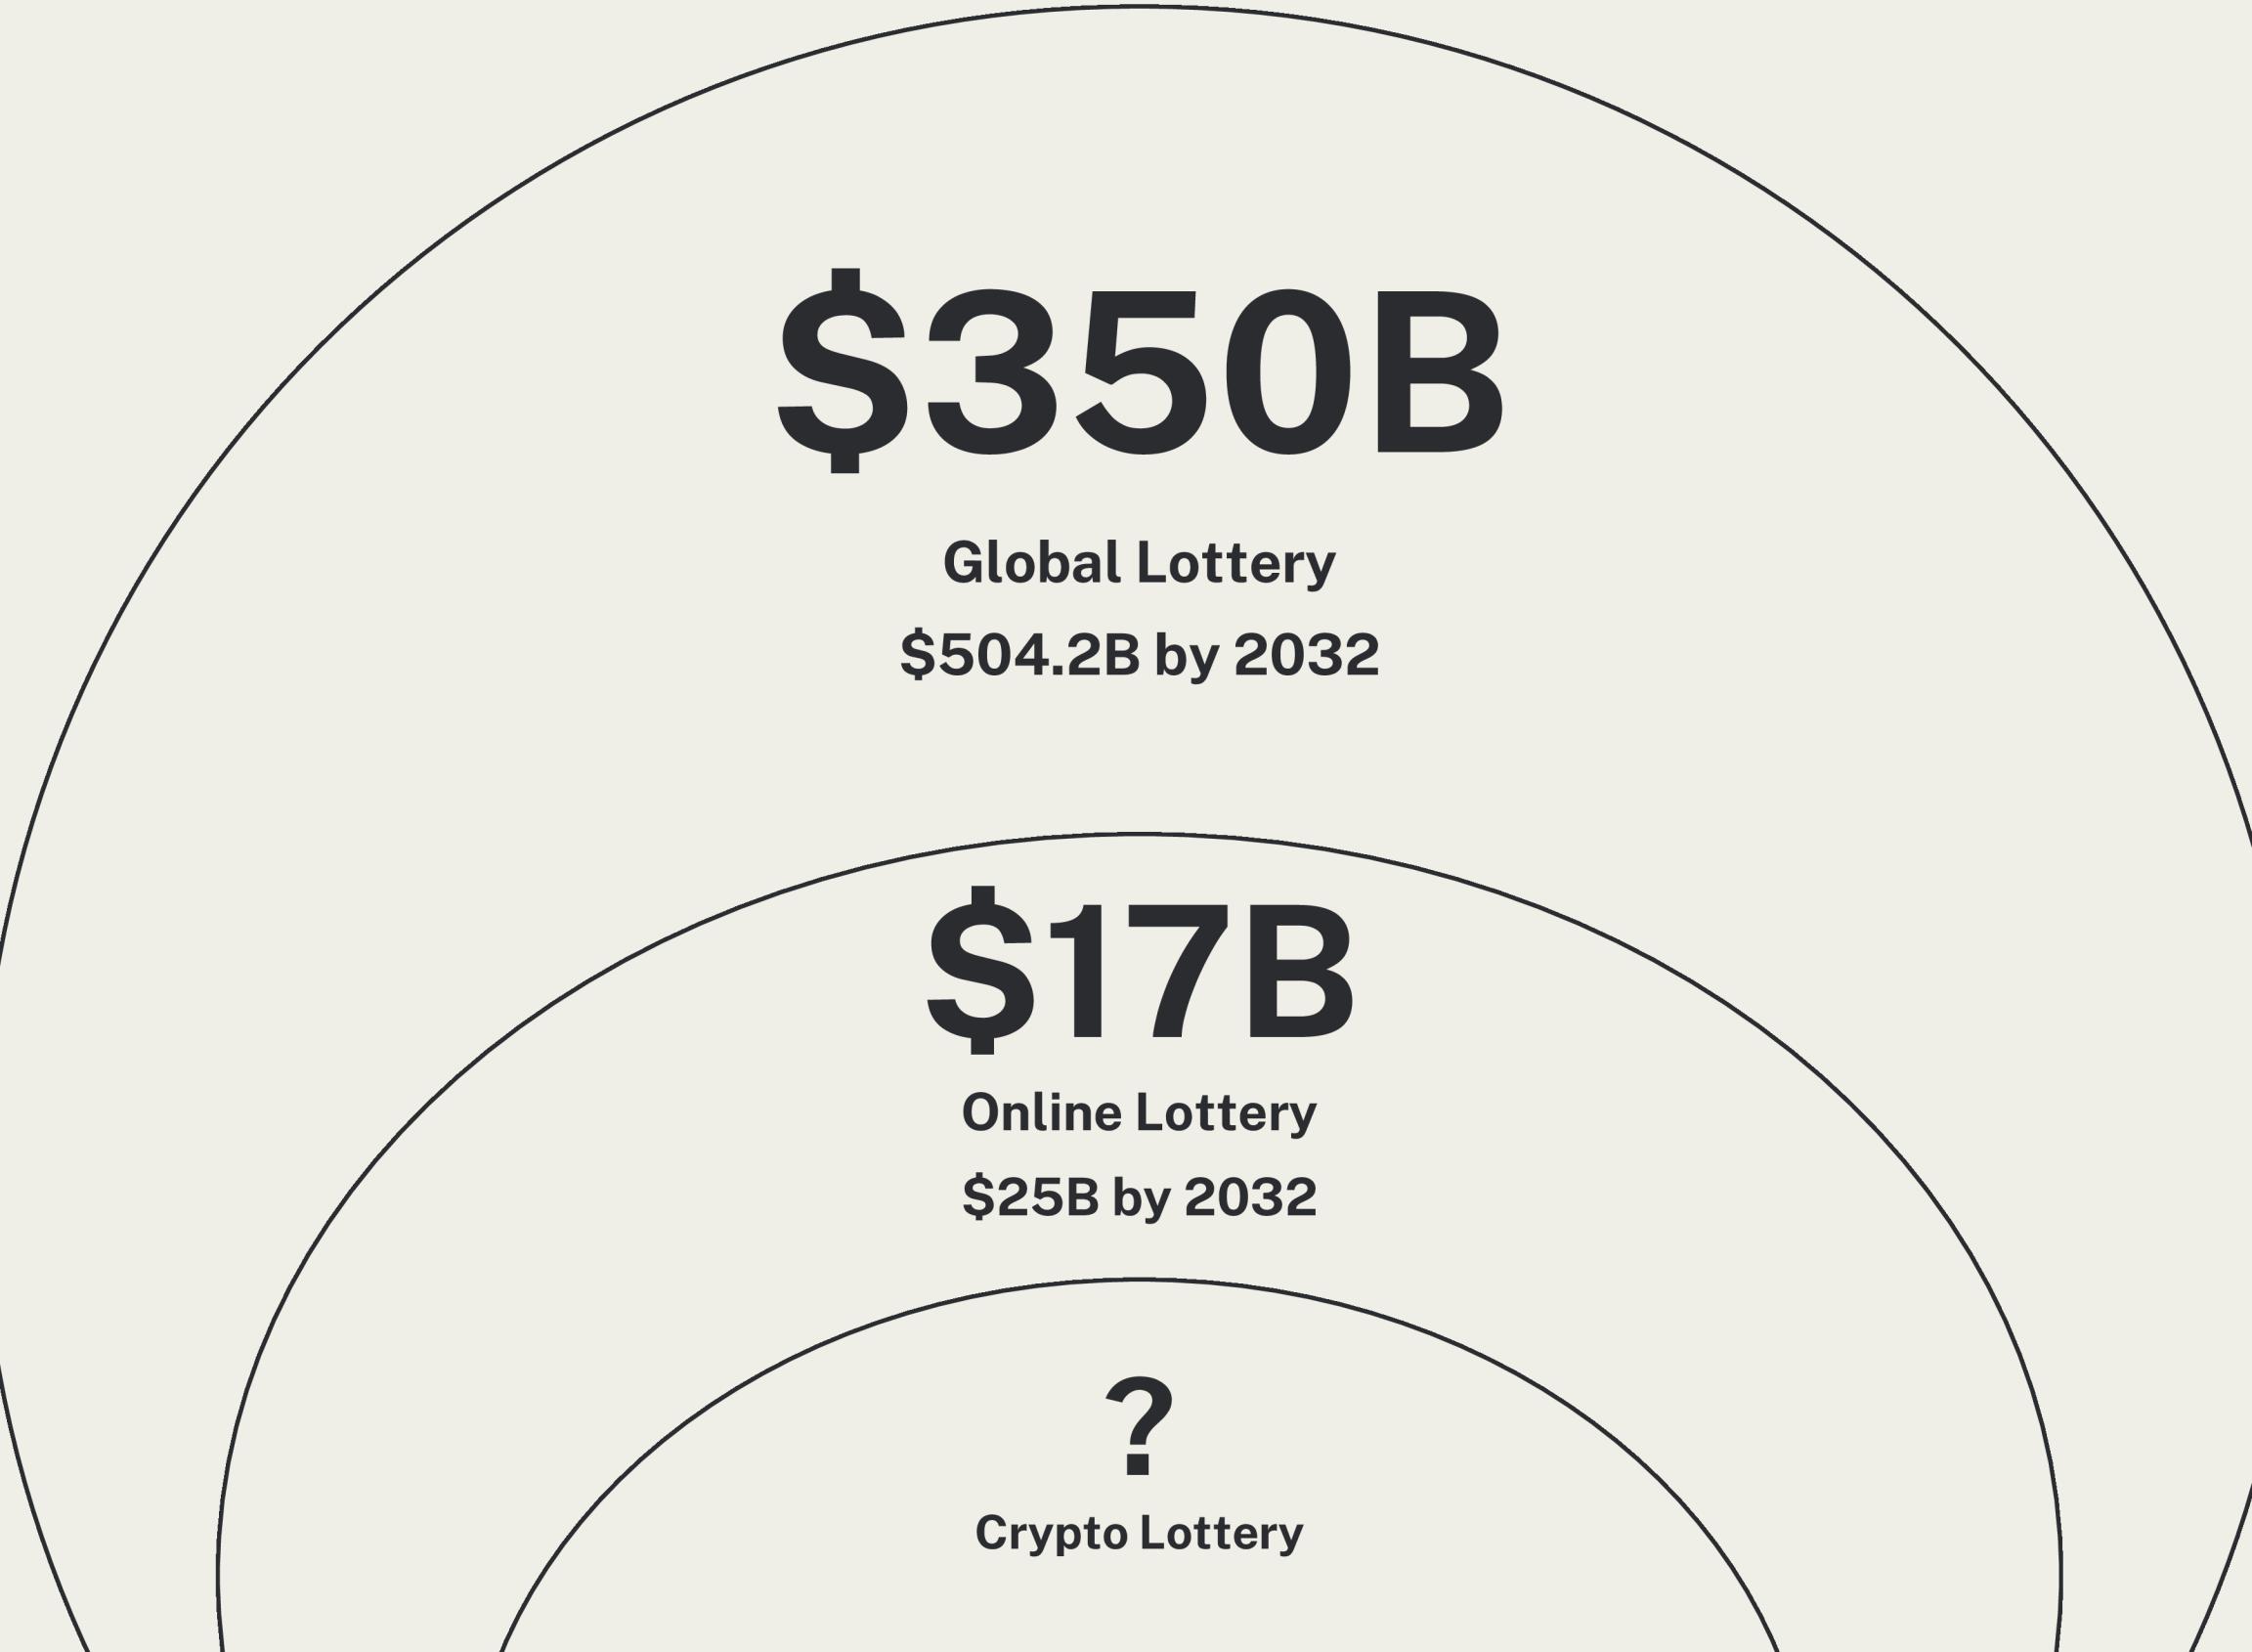

TIMING

Blockchain hype after the halving and US elections

The bullish market trend regarding the historical data

Global lack of trust for the projects, organizations, and governments

NEXT STAGES

Multichain Platform All Crypto Users

With the correct partners and marketing strategy, OnChainWin can be part of every crypto user in the world and their daily routines. OnChainWin can distribute 1 ETH every day even every hour with a strong community.

Pioneer of Blockchain New Web3 Users

OnChainWin provides value and transparency with the power and technology of the web3. Educational channels can convert a huge number of traditional and web2 lottery players into dedicated web3 users.

Power of Community Sponsored Raffles

With the power of community, OnChainWin will be a perfect advertising platform for new projects and companies. Smart contracts can be outsourced to provide fair draws for additional organizations.

Innovation Ticketization of Assets

We all know the English citizen, Dunstan Low, who sold his mansion with raffle tickets when he could not find a buyer with regular methods. Selling digital and real assets through OnChainWin is the ultimate goal.

ROADMAP

<i>Raffle Platform</i> Step 1 - OnGoing	<i>Partnership</i> Step 2 - OnGoing	<i>Strong Community</i> Step 3 - OnGoing	<i>Ads Platform</i> Step 4	<i>Sales Platform</i> Step 5
OnChainWin raffle and lottery platform can create multiple draws at the same time with different conditions.	Different projects, communities, influencers, and even web2 lotteries can use OnChainWin web3 randomness to bring fairness to their raffles and giveaways.	With the value of transparency and fairness, a strong community will grow and make OnChainWin part of their daily routines.	A strong community will attract different projects and companies who want to introduce themselves to new potential users. Product giveaways and sponsored raffles will be possible.	Ticketization of the digital and real assets under the regulations allows buyers to sell their products through raffle tickets.
